ROSE

68th
Year

FOREWORD

IT IS a privilege to present this list of grades and prices to our friends, both present and prospective. Our plants have been flourishing like the proverbial "green bay tree" during the growing season just past, and we are content once again to stake our reputation on their excellence.

A beautiful garden can be accomplished with far less time and expense than you realize. Do you have in mind a spot which needs a special plant to lift it out of the commonplace? We suggest Cleysa Japonica or Feijoa or Viburnum for that situation. And for a plant which will give added charm and distinction to your garden, choose the Camellia Japonica. Look through our list and make your selections.

For over a half century we have been supplying home and grove owners with fruit and nut trees for their plantings. Have you tried our Grapevines, either the Muscadine or Bunch type, or our fine Persimmons, Pecans and Citrus trees?

Careful attention is given to mail-order customers. You may order with assurance of getting quality stock, grown true to name and expertly packed for delivery. If you call at our Nursery, there will be courteous and experienced employees to help you make your selections. And by all means don't forget to look in the Greenhouses when you visit us. You'll enjoy the experience.

We are interested in your success with the products we sell and value your goodwill. If you find something wrong with our materials or service, please tell us about it—and by the same token if you are pleased, let us know that, too. We have built our reputation on satisfied customers and their helpful suggestions will, as always, be welcome. Our grateful thanks to you all—for the past and in anticipation of the future.

Glen Saint Mary Nurseries Co.

Glen Saint Mary, Florida

TELEPHONE, Glen Saint Mary No. 2

TERMS OF BUSINESS

LOCATION

General Office and Nurseries at Glen Saint Mary, Baker County, Florida, on Seaboard Air Line Railway, and State Road No. 1, 30 miles west of Jacksonville. Office and Citrus Nurseries at Winter Haven, Polk County, Florida. The office is not open for business Sundays, and during the summer we are closed on Saturday afternoons. We recognize most national holidays, such as Fourth of July, Labor Day, Thanksgiving, Christmas, New Year, etc. Visitors who come to the Nursery in disregard of this notice are welcome to look around, but must not expect the help of a salesman or to have plants dug.

APPLYING PRICES

Orders for five (5), fifty (50), and five hundred (500) plants of one class command the 10, 100, and 1000 rates respectively. Prices herein are for the Retail trade only and cancel all previous lists and catalogues. They are based on current conditions and therefore subject to change without notice.

CASH

or satisfactory reference must accompany all orders for immediate shipment unless the person ordering has an account. On orders booked in advance of the shipping season, 25 per cent down, with the balance due when the shipping season opens, will be required. Reserve orders are accepted only upon condition that they shall be void should injury befall the stock before shipment, from any cause not under our control. Stock held in our fields on reserve long enough to grow to a larger grade will be billed accordingly at shipping time.

OUR PRICES

do not include transportation costs. Be sure to state clearly when ordering how you wish shipment made—by Parcel Post, Express, Commercial Truckline or Freight. Lacking this information, we will use our best judgment as to method of forwarding. On orders for shipment by Parcel Post, *add 25 per cent to total amount of order to cover cost of packing and postage.* Unused balance of remittance, if any, will be refunded when invoice is mailed. Heavy shipments that would be expensive by Express can usually travel via Commercial Truckline nearly as quickly as by Express, and for less cost. Please use our order blanks; additional ones will be mailed on request.

SHIPPING AND PLANTING SEASON

From the middle of November to April for bare-root plants covers the average season, but weather conditions each year govern beginning and ending dates. Balled and Burlapped plants and trees may be safely moved almost every month of the year.

SUBSTITUTION

It is our desire to furnish stock exactly as ordered, but in case varieties are exhausted, please state definitely on your order blank or in your letter if you wish us to substitute. Otherwise, shipment will be made short without substitution.

GUARANTEE

We guarantee our stock to be well grown, true to name, properly packed, and shipped according to instructions. In no case shall our liability be more than the original invoice value. There shall be no nursery stock sold under a guarantee to live, except with the understanding that, if it dies, it will be replaced *as soon as possible*, at not less than 50% of purchase price. Claims for replacement must be made in writing within three months after receipt of plants.

CLAIMS

If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after the receipt of goods. Our responsibility, except as stated above, ceases upon delivery of nursery stock in good condition to public carrier.

Our Ligustrums Are Grafted

They may cost a little more at first, but when you consider their freedom from root-knot (nematode) and consequent longer and more vigorous growth in southern Florida and similar situations, the original outlay is well spent. A disease-resistant Privet is used for rootstock.

Look for our list of Horticultural Books on page 11.

Glen Saint Mary Nurseries Grafted Magnolias make perfect uniform trees. None finer.

BEST WE KNOW— RELiance AZALEA AND CAMELLIA FERTILIZER

In response to many requests of our customers, we are happy to offer this scientifically blended plant-food for the acid-loving plants. We recommend at least two applications a year—more if the soil is very light. A RELiance booklet entitled *Azaleas and Camellias* is available here on request. It gives a lot of good information about these plants and suggestions for their care.

DAYLILIES

See descriptions in our catalog

We cannot ship orders for fewer than five (5) Daylilies (either clumps or bibs), and we ask the indulgence of our customers in making up their orders. This restriction does not apply to customers who come to the Nursery for their plants.

In 1941 we introduced to our Daylily public the strikingly handsome Hemerocallis, Mrs. John J. Tigert, originated and developed by Professor John V. Watkins of the University of Florida. This was closely followed by the graceful Swan and the following year by Kanapaha and Welaka.

This year, we are very happy to be one of four Daylily dealers chosen by Professor Watkins to introduce his three latest originations. The number of available plants is very limited, particularly Allapatah, of which we can allow only one to a customer.

ALLAPATAH. A large, strong-growing, free-flowering evergreen plant, blooming in mid-April and well through the summer. The flowers are a very deep maroon-red, practically self-colored. For us here at Glen Saint Mary, Allapatah and Jack'n Jill have bloomed over a longer period than any other Daylily we list. \$3.00 each.

JACK'n JILL. A pair of very interesting and attractive dwarf-type Daylilies, one evergreen, the other deciduous, to be planted alternately as an edging to the Daylily border. The color is a deep ruby-red and the foliage is low and spreading. The evergreen clone blooms in early April and the deciduous one a few weeks later, giving a continuation of color over a long period. Per pair only, \$3.00.

TAMIAMI. This evergreen plant is very robust and multiplies rapidly. The large, spreading flower of Pompeian red is slightly recurved and gives a fine day-long effect, since it does not roll or fade in the sun. No other available commercial clone exhibits the outstanding soft pinkish red tone that is the salient feature of this selection. \$3.00 each.

Single Division (Bibs)

Aurantiaca Major	Patricia
Chisca	Swan
Dauntless	Welaka
Kanapaha	

Above varieties, \$1.75 each

Emily Hume	Serenade
George Yeld	Soudan
Linda	Vulcan
Mrs. John J. Tigert Wau Bun	

Above varieties, \$1.00 each

Bagdad	Modesty
Bijou	Mrs. A. H. Austin
Boutonnierre	Ophir

Above varieties, 30c each

Daylilies are fine for gifts. Remember your friends this way on occasions.

Multiple Division (Clumps)

Anna Betscher.	Light yellow.
Apricot.	Deep yellow.
Aurantiaca.	Reddish orange.
Citrina.	Pale yellow.
Gypsy.	Light orange.
J. R. Mann.	Medium yellow.
Kwanso.	Double, orange-red.
Margaret Perry.	Fulvous red.
Clumps	Each 10
Small, 4 to 5-in. diam.	\$0 50 \$4 00
Medium, 5 to 7-in. diam.	60 5 00

DAYLILIES

Few perennials are more adaptable to Florida gardens than are the modern Daylilies. Not only their brilliant coloring, but their fragrance, their unusual hardiness and their long blooming period make them indispensable for garden use. In recent years, enthusiastic growers have developed new strains which vary in color from palest yellow to deep vermilion.

Set the plants at least 2 feet apart. They can be grown with ease in full sun or partial shade, with the exception of those having red tones. These varieties have much better and more typical color when grown in partial shade. Daylilies are not particular as to soil, provided that it is well drained. They benefit from occasional feedings of fertilizer but need very little care.

Plants vary in height, in color and in blooming season and can be used in many ways. They are at home in the perennial border or in the shrub planting. You can find a place for Hemerocallis in your foundation planting, or you can use them in great borders in your garden or as accents with other perennials. Our list of plants is truly representative of the best kinds obtainable.

CITRUS FRUITS

For Colder Sections

Grown at Glen Saint Mary on Citrus trifoliata stock, which is the most cold-hardy understock known. Orders and requests for detailed information on these trees should be directed to our Office at Glen Saint Mary, Fla.

ORANGES:

Glen Improved Hamlin	Tangerine
Lue Gim Gong	Temple
Parson Brown	Valencia
Pineapple	Washington Navel

SATSUMA ORANGES:

Owari	Kawano Wase
Silverhill	

GRAPEFRUIT:

Duncan	Marsh Seedless
Glenred. Pat. 53	Thompson (Pink)
Glen Improved	
Foster Pink	

NOTE. Glenred (Henninger Ruby) Grapefruit trees are sold subject to U. S. Plant Patent No. 53. Their use, both as tree and parts thereof, is restricted until patent expires Jan. 24, 1950.

GLEN AIR-DRIED PEAT

We are fortunate in having one of the finest deposits of pure Sedge Peat in this part of the country. Analysis as determined by commercial chemists, Thornton & Co., of Tampa, Florida, is as follows:

Available Phosphoric Acid....	0.04%
Insoluble Phosphoric Acid....	0.03%
Total Phosphoric Acid.....	0.07%
Nitrogen.....	1.05%
Equivalent to Ammonia.....	1.28%
pH Value..	4.90 (Neutral is 7)

A report from the U. S. D. A., Bureau of Plant Industry, Washington, D. C. to whom we sent samples of Glen Peat, reads in part: "The material is exceptionally uniform in texture, composition and reaction. It consists of fibrous material

derived from rootlets and underground stems of sedges and several grasslike plants. Plant remains from Sawgrass are not abundant however, and organic material from Sphagnum mosses is not present. The reaction is acid pH 4.5 to 5.0."

Moisture retention ratio, 4.26 to 1. This means that Glen Peat will hold, when fully saturated with water, more than four times its own dry weight.

WHAT TO DO WITH IT

Use it for lawns, both old and new—incorporated in the soil when building new lawns, or as top dressing at least once a year on established grass.

Use it to build up humus content of light soils and to improve their moisture-holding capacity.

Use it as a mulch wherever one is indicated, but particularly for acid-loving plants such as AZALEAS, CAMELLIAS, MOUNTAIN LAUREL, GARDENIAS, HOLLY, MAGNOLIA, TEA PLANTS, NANDINA and others.

Use it thoroughly mixed with the soil in planting AZALEAS and CAMELLIAS; its acid reaction will help keep these plants in the best possible condition.

Price in sacks.....\$1.00 per 100 lbs.

If larger quantities or truckloads are desired, write us for quotations. Minimum order shipped, 100 pounds.
